

This communication is regarding instructions to download and Installation of an e-learning platform A-VIEW.

Below are the instructions to download and install A-VIEW in your computers/ laptops.

**System requirements:**

RAM - Minimum 2 GB

Processor - Minimum Intel Core i3

Internet connectivity - Minimum 1 Mbps upload and 1 Mbps download

**Required audio and video equipment**

***Single Person:***

1. WebCamera
2. Headphone with Mic

***Group:***

1. HandyCam
2. Mic and Speakers

**Other requirements:**

If you are using the campus network connection, then port number – 80, 443 and RTMP protocol has to be opened

Do not use any video conferencing software when A-VIEW is running, this may have some video device sharing issue between A-VIEW and other software.

**Download & Install A-VIEW:**

Download and install A-VIEW Installer from <http://aview.in/login> with your **username: XXXXXX and password :Aview@123** under "Existing A-VIEW Users" section. Please enter the verification code and based on the OS used, A-VIEW can be downloaded for Windows or Mac.

After installing, double click the icon on your desktop to run it (In XP or Mac machines). In Vista / Windows 7 machines, you need to right click on the A-VIEW icon and click on "Run as Administrator" (Enter the admin username and password of your PC)

**To login as a user:**

- Select Server: National Server
- Type User **name: XXXXX & Password :Aview@123**
- Login type: Normal
- Click Login
- Click **Join Now** Button near Live Sessions.
- Click Start Video, check your headphone and web camera using the pretesting option, select video quality as 128 kbps and then save it and start.
